Alicia Dickenstein was born in Buenos Aires, Argentina. She completed her BS in mathematics in 1977 and her PhD in 1982 at the University of Buenos Aires, where she is now a full professor. Dickenstein’s research is in algebraic geometry and its applications. She has published over 80 research papers and supervised 7 graduate and 20 undergraduate students. Dickenstein is a Fellow of the AMS (2019) and SIAM (2020) and received the 2021 L’Oréal-UNESCO International Award for Women in Science. She also served as a vice-president of the International Mathematical Union (IMU). In addition to her research, Dickenstein co-authored Matemax, a problem-solving book for children presented in both Spanish and English.

This poster is part of the EvenQuads project, which combines innovative mathematical card games with learning about amazing women mathematicians. The project celebrates the 50th anniversary of the Association for Women in Mathematics.
